Celframe **Security** Labs

Celframe Antivirus Free Global Community Edition

Your Life, Our Protection

The best free Next Generation Cloud based Antivirus Protection. The only security software for you and your loved ones computer. Virus and malware protection with firewall, anti-spyware, identity, community protection, worlds first dual engine, auto-pilot resource balancing technology, compatible with other anti virus and works great on old/ legacy systems.

Protect your everyday social life and secure your PC from the latest viruses now!

What's New

World's 1st Social Anti Virus

When sharing Likes, Tweets, Comments to your friends, fans or followers, you're empowering Viruses to spread. With CAV you gift your loved ones FREE protection.

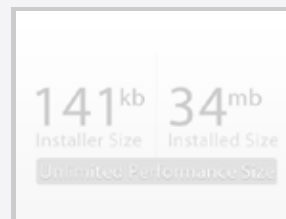

Double the Protection

Using proactive defense technology leveraging your community, CAV fights every threat using it's Dual-engine making it virtually impenetrable and self learning.

Cloud Security

Everyday increasing people storing mails, data, photos online, so we protect you on the cloud using our cloud protection. So even your old PC gets new lease of life.

Advanced, Powerful and Smallest

Low resources means faster PC and better performance. Smallest size in it's class to out perform your needs as it harnesses the power of latest technology both online and offline.

Compatibility and Stealth

They say it's "Intuitive, Transparent and Practical". They missed that it's also friendly, CAV works with our competitors Antivirus side by side, no quarrel here.
